

Roscommon Youth Community Development and Leadership Training Programme

Twenty six students from Castlerea Community School completed the Roscommon Youth community development and leadership training programme in May 2012. The course equipped the students with the knowledge, skill and confidence to engage with development projects in their area.

The programme included a field trip to NUIG where the student presented their projects in the lecture theatres. The students will graduate in October. This was delivered by NUIG and supported by coordinator Teresa O'Brien.
